

REENERGY

EXPO - 2018

A Dedicated
Exhibition to
accelerate the
Innovations in
**LED, SOLAR &
RENEWABLE ENERGY**

21,22,23 DECEMBER-2018

CHENNAI TRADE CENTRE

TIMING : 10.30 AM - 8.00 PM

**SOLAR | WIND | HYDRO | BIO | GEOTHERMAL
COGENERATION | ELECTRIC VEHICLES | ENERGY EFFICIENCY**

DEAR EXHIBITORS...

The **RE-ENERGY, LED & SOLAR EXPO** is organized by **PROMPT TRADE FAIRS (I) PVT LTD.**, Who are pioneers in organizing exhibitions and have a proven track record in organizing trade fairs across the country. **PROMPT TRADE FAIRS (I) PVT LTD**, was established in the year 2002 with a zeal to excel in the field of organizing Exhibitions and is today counted among the reputed Exhibition Organizers in the country.

WHY EXHIBIT IN RE-ENERGY EXPO ?

Renewable energy sources and technologies have potential to provide solutions to the long-standing energy problems being faced by the developing countries. The renewable energy sources like wind energy, solar energy, geothermal energy, ocean energy, biomass energy and fuel cell technology can be used to overcome energy shortage in India. To meet the energy requirement for such a fast growing economy, India will require an assured supply of 3-4 times more energy than the total energy consumed today. The renewable energy is one of the options to meet this requirement. Today, renewable energy account for about 33% of India's primary energy consumptions.

India is increasingly adopting responsible renewable energy techniques and taking positive steps towards carbon emissions, cleaning the air and ensuring a more sustainable future. In India, from the last two and half decades there has been a vigorous pursuit of activities relating to research, development, demonstration, production and application of a variety of renewable energy technologies for use in different sectors.

The **RE-ENERGY EXPO 2018** will be a dedicated Exhibition for the Renewable Energy sector and intends to accelerate the growth of the Sector by showcasing all applications of the Sector and the latest innovations from the best-in-class Manufacturers from around the world.

WHY EXHIBIT IN LED & SOLAR EXPO ?

Our country is rapidly entering into a LED revolution, as LEDs are today proving to be the perfect lighting solution for all spaces whether Private, Public or Commercial. Lighting is evaluated to account for about 30% of the total Global consumption and hence it becomes vital to replace all conventional lighting systems with the latest and innovative LED Lighting systems, thereby reducing the energy use by approximately about 40 percent. Further to Energy efficiency, cost effectiveness and design flexibility are added features of LED lighting systems

India has tremendous scope of generating solar energy. The geographical location of the country stands to its benefit for generating solar energy. The reason being India is a tropical country and it receives solar radiation almost throughout the year, which amounts to 3,000 hours of sunshine. India is slowly gaining its prominence in the generation of solar power due to the comprehensive and ambitious state and the Centre's solar policies and projects and National Solar Mission. Considering all these facts, we do have a bright picture in front of us as India's potential to be a solar power driven country of the world.

The **LED & SOLAR EXPO 2018** at Chennai, South India will prove to be the largest trade event for the LED & SOLAR industry in India, with complete presence of full spectrum of the LED & SOLAR industry.

Leading companies from around the world will use the Exhibition as a communication and information platform and the visitors will be able to collect detailed and comprehensive information about the latest technologies and developments in **RENEWABLE ENERGY, LED LIGHTING TECHNIQUES AND SOLAR**.

SERVICE TO THE EXHIBITORS

Floor: Synthetic Clean Carpet laid for the stall as well as the aisle area

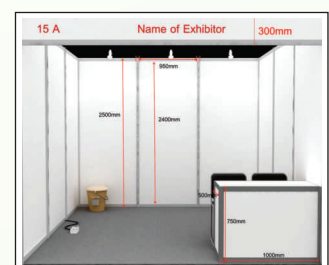

Stalls: Pre-fabricated aluminum octonorm systems with ply panels

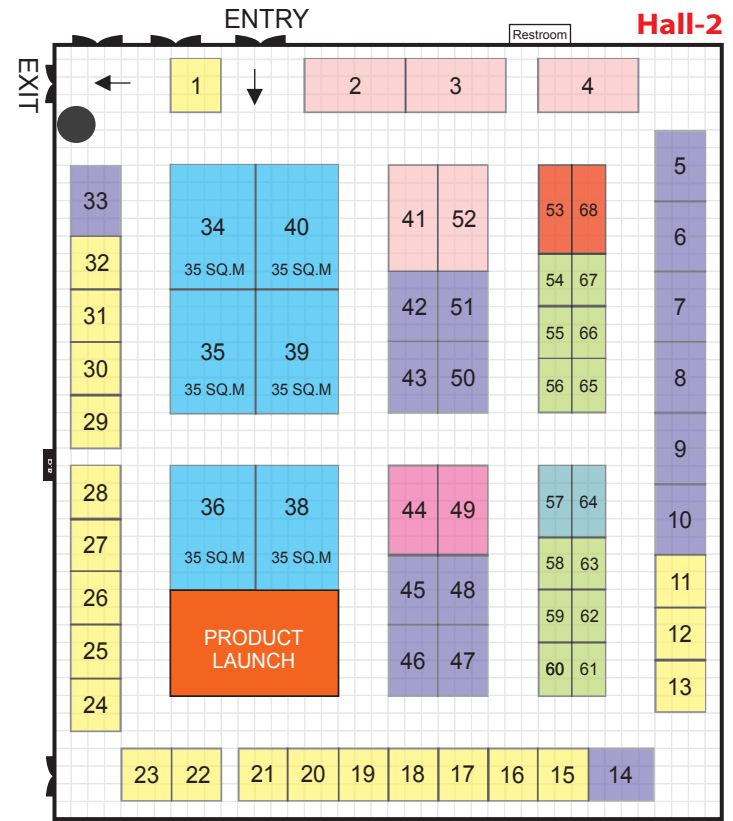

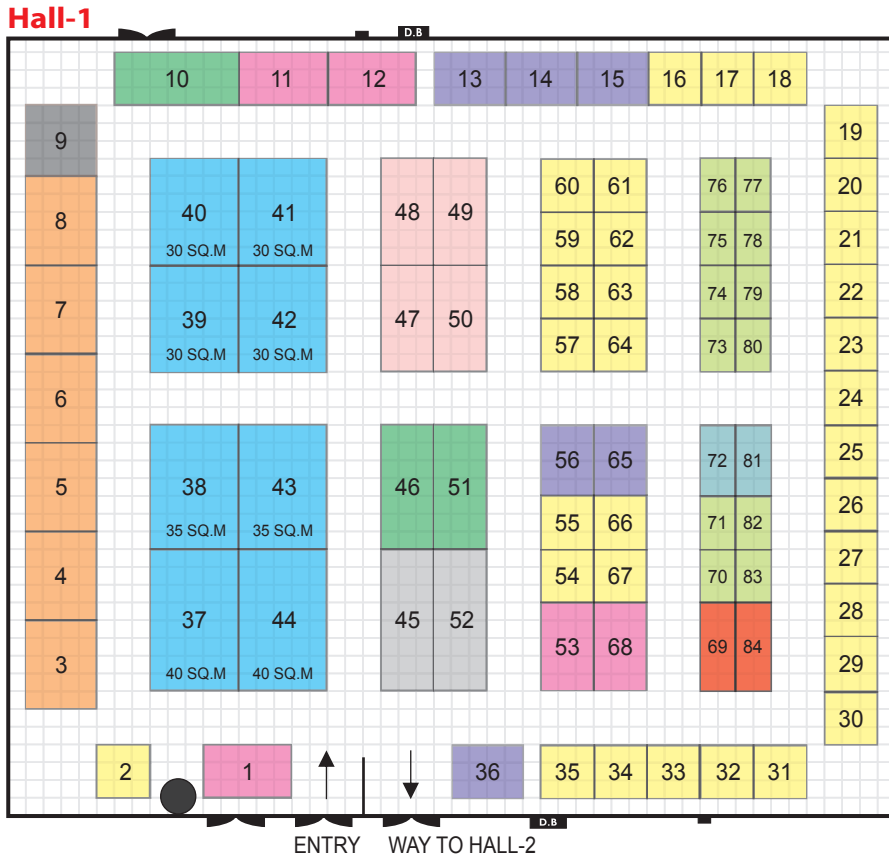

Fascia: Participant Name in Cut-graphics

In-STALL Furniture: Table, Chairs & Waste Paper basket

Electrical Fittings: Spot Lights, 5A Power Socket

Others: House-keeping, Security, Doctor & Ambulance, Drinking Water

STALL SIZES : PREMIUM 8x3 7x3 6x3 5x4 5x3 5x2 4x4 4x3 4x2 3x3 3x2

COST OF PARTICIPATION (Per Sq. meter)

INR	₹ 12000/-	US Dollars	\$ 172	Euros	€ 151
-----	-----------	------------	--------	-------	-------

PAYMENT TERMS

An Advance payment of 50% has to be paid at the time of booking. Balance 50% of the stall cost has to be paid 30 days before the exhibition. Payment should be made along with the contract form duly filled-in by way of D.D/Crossed Cheque payable at Chennai, in favour of Prompt Trade Fairs (I) Pvt. Ltd. GST @ 18% extra.

PROMOTIONS

1. Massive Advertising in Leading News Dailies, Magazines.
2. Personalized Invitation to Top Industry Professionals of Trade Associations.
3. Bulk Campaign via SMS & E-mail to targeted and authentic Industry visitors base, Social Media and Online Ads.
4. Show-lisiting & Web Banner Advertisements on Top Building Industry Portals.
5. Outdoor Advertising through Pole Banners

EXHIBITOR PROFILE

Manufacturers & Dealers of Solar cells and Module encapsulation, Crystal growth equipments, Diffusion furnaces, laminators, Mounting systems, Concentrators, Trackers and collectors, Inverters, Charge controllers, Batteries and Module connectors, PV Modules, Hybrid systems, Solar drying and desalination systems, Solar water heating, Cooling systems & Solar pumps, Glass, Substrates, Coatings, Resins, Encapsulation materials, Turnkey solution providers, Electrical testing and measuring systems, Solar Street lighting systems.

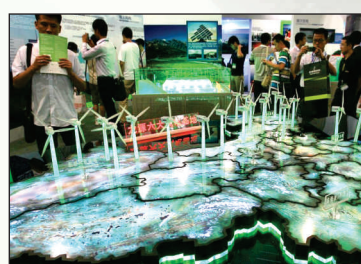

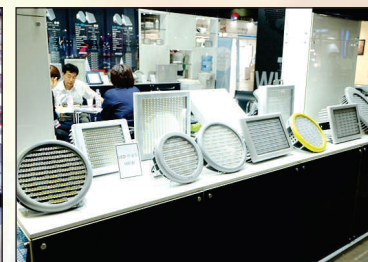

Civil engineering Surveyors and contractors, Consultants and Certification agencies, Electrical and Electronics items, Hydraulic and mechanical items manufacturers and suppliers, Stand-alone small aero-generator manufacturers, WEG Manufacturers, Erection contractors, Spares, Components, tools and lubricants manufacturers, Wind monitoring and analysis systems suppliers, Wind-Solar hybrid power system integrators.

Analytical instruments manufacturers and Service providers, Bio-diesel/ Bio-ethanol distributors, Dispensing and Mixing equipment manufacturers, Biomass heating and drying equipment manufacturers, Bio-reactor, Boilers, Turbines & turbo-generator Manufacturers & consultants, Bio-gas Plants. UPS systems, Power Generators, Power Conditioners, Batteries & Power Systems, Electrical vehicles, Energy Efficiency & Consultancy, Energy Building Materials.

Manufacturers, Dealers of LED circuit boards, Control systems, Dimmers, DMX controllers, LED encapsulation materials, LED Displays, LED lighting systems, LED Drivers, Power Supply system Manufacturers and Dealers.

VISITORS PROFILE

Architects	Equipment Manufacturers
Planners & Engineers	Facility Managers
Builders	Factory Owners
Specialists & Consultants	Financial Service Providers
Manufacturers	Government Agencies
Consulting Firms	Insurance & Law Firms
Contractors	Purchase Managers
Corporates	Hotel Association
Entrepreneurs	Industries Association
Environmentalists	International Investors
